

本人（康明珠），因药物中毒，以致脸部皮肤溃烂。寻遍名大中医及皮肤科医生，长达 10 年之久，却都无法痊愈。使用人参粉后，不断排毒，调理 2 年的时间，改善很多（此相片是痊愈七成），最后达到健康。

My name is Kong Meng Zhu (Translated). Due to medical poisoning, my skin was festering, particular on my face. I had tried different medications and treatments in a period more than 10 years but I had not been able to recover fully.

Upon using the Ginseng product, my body was undergoing constant process of detoxification. After two year, my overall condition had improving significantly.

The first picture was taken when I had achieved a 70% of recovery and the second was taken when I was almost fully recovered.
